

Continuous Delivery with IBM Cloud

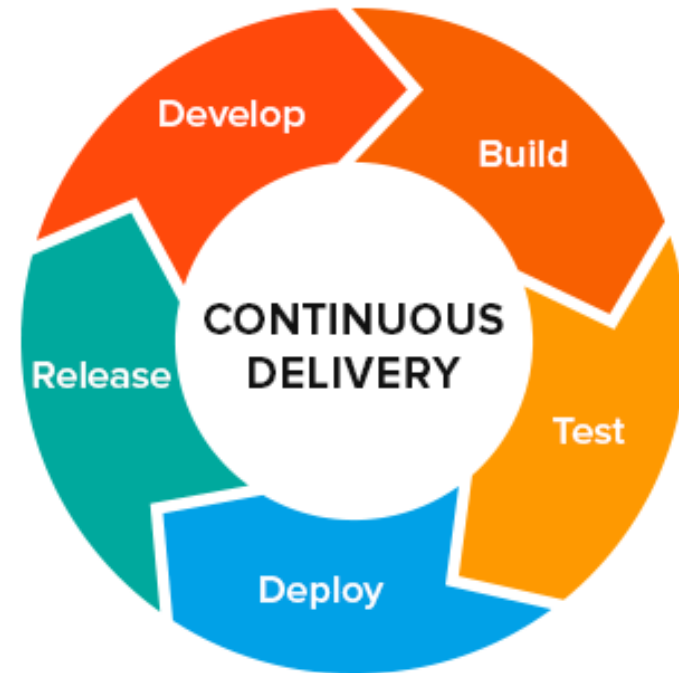

William Pereira

z/OS System Programmer | Cloud Technology enthusiast

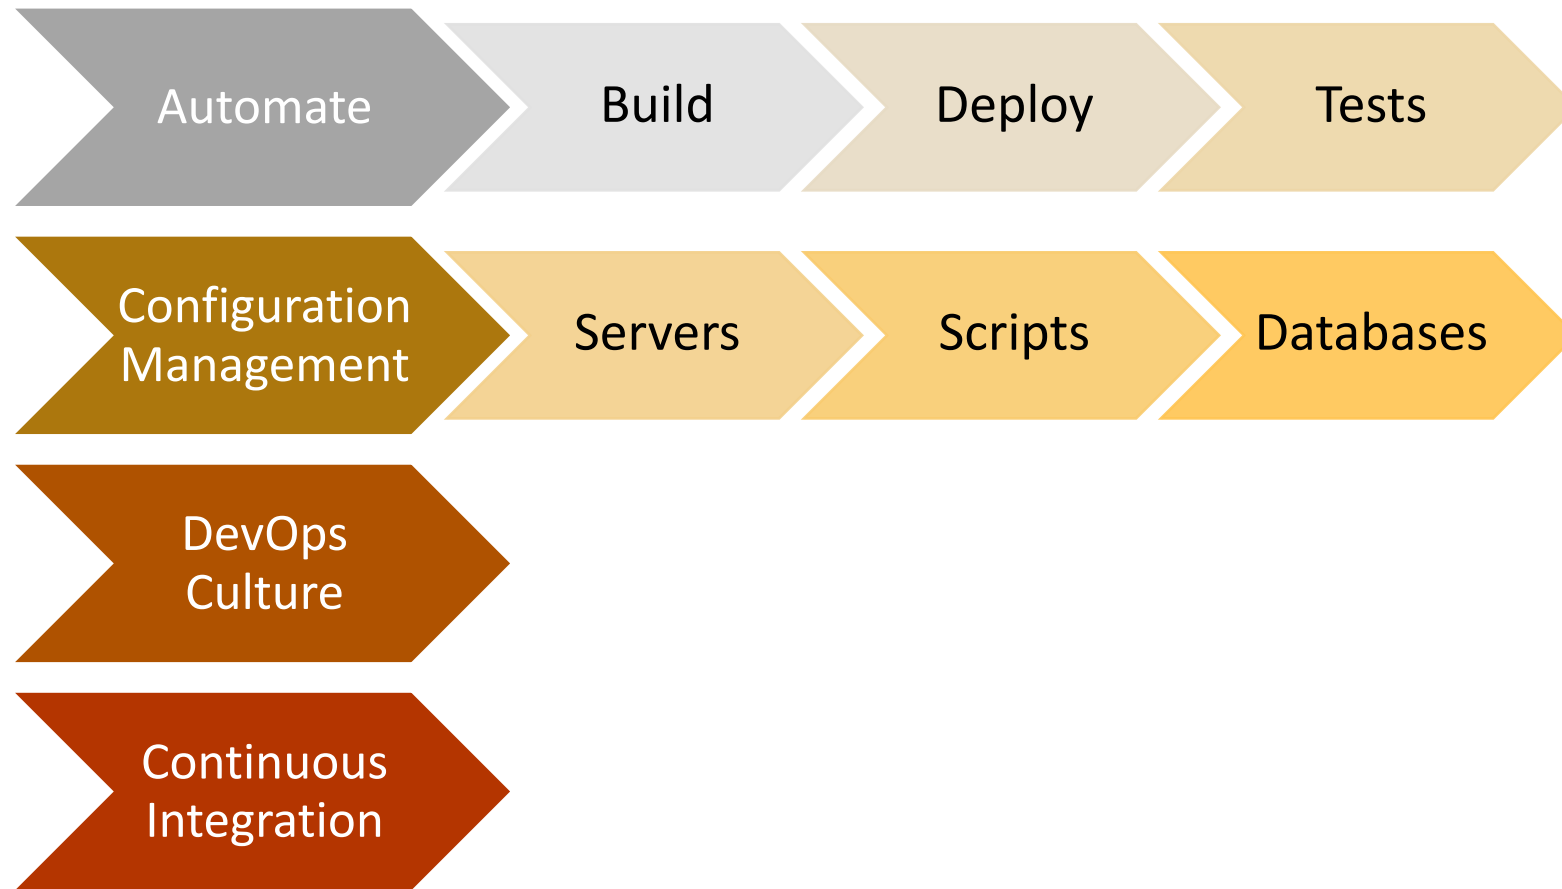

The problem of delivery software

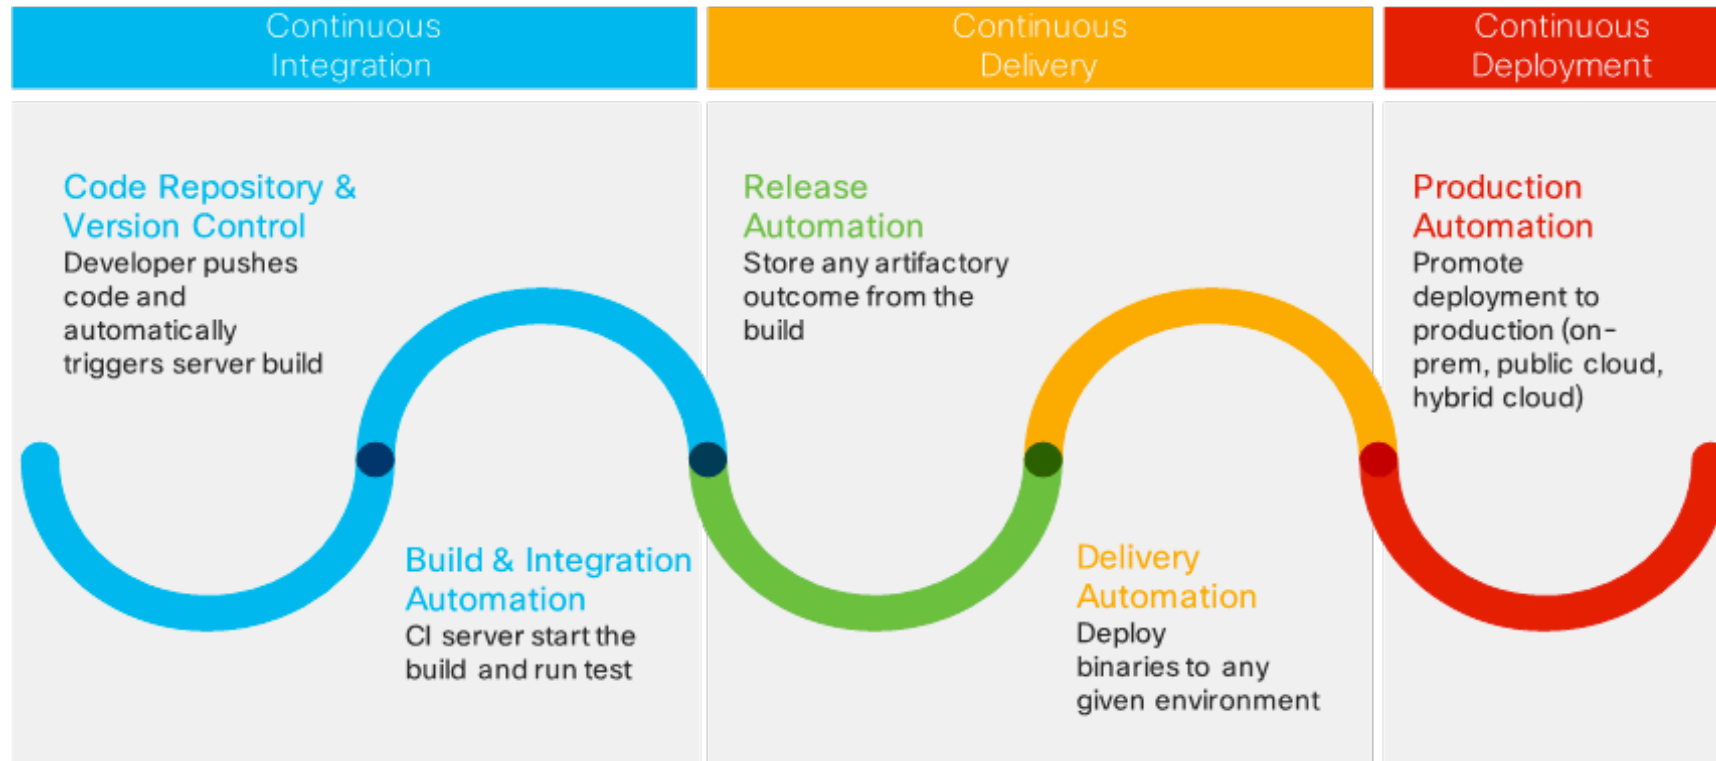

- How to delivery a good Idea as quickly as possible?

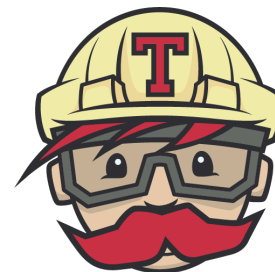

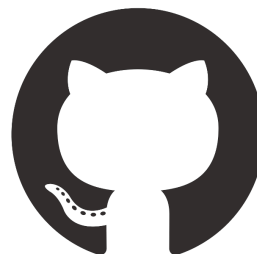

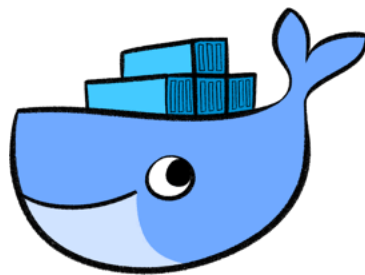

Ingredients

CI/CD Process

Hands On

Setup your machine

- Install NodeJS
 - <https://nodejs.org/en/>
- Install VSCode
 - <https://code.visualstudio.com/>
- Install Docker
 - <https://www.docker.com/get-started>
- Install Git
 - <https://git-scm.com/>

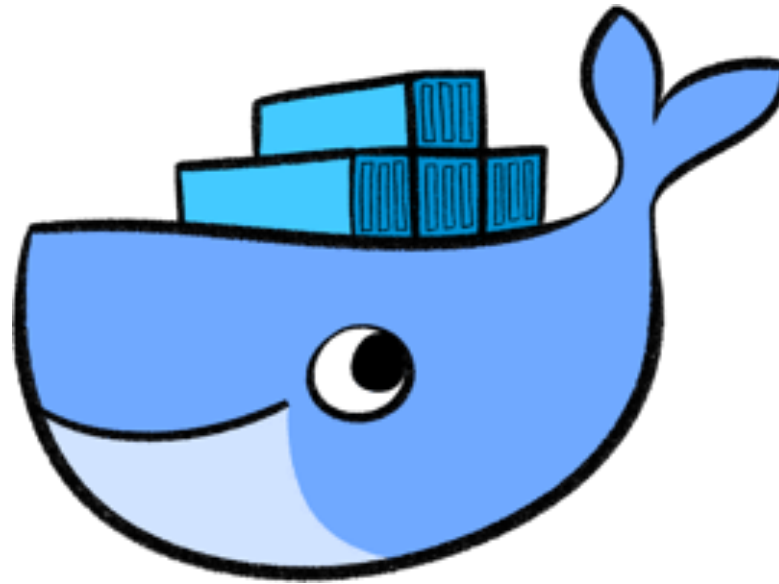

The project

 Agenda App

 Repository

<https://github.com/billpereira/RTE-2019-Agenda-App>

Setting up the Dockerfile

Linking with Travis

Setting Up IBM Toolchain

Making changes on the application and re-deploying
